Industry is on a journey

Old World		New World
Static		Dynamic
Silo		Shared
Physical		Virtual
Manual		Automated
Application		Service

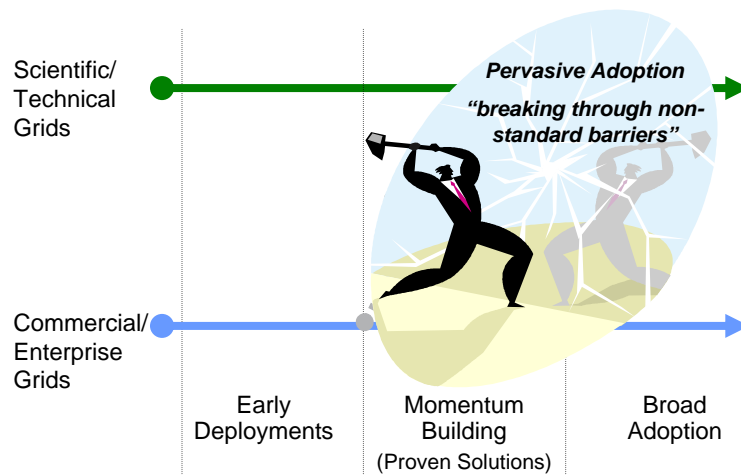

Grids with the associated technologies
(virtualization, automation, service orientation)

are about transforming how science,
business and IT is done

Adoption will progress in stages

Global Grid Forum – Leading the pervasive adoption of grid computing for research and industry

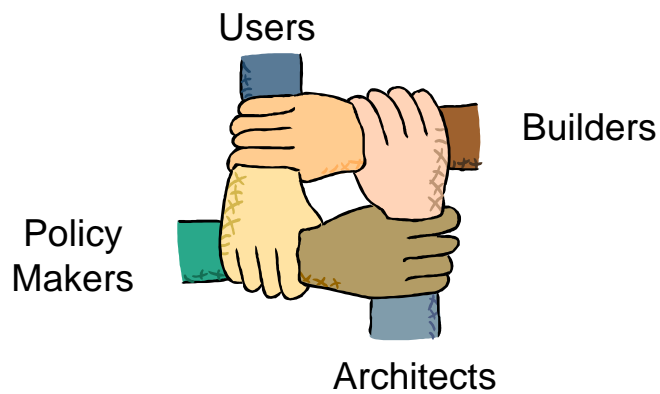

Pervasive Adoption

- Global Standards
- Research Insight
- Deployment Best Practices
- Commercial Engagement

Grid Community

Grid World - Working together to accelerate the adoption of grids worldwide

eScience ————— eBusiness
